

Glenn W. Kinley,

Mon. Feb. 28, '83

In my dream I had I saw 1930 that Dr. Henry C. Kinley had the vision, and that is what you been saying. He didn't get to make the chart on the bed sheet and finish it until in June. He took it out to explain June 22, 1932.

I was even explaining it to the man I saw, but I do not know who the man was. The chart I got in the book case has June 22, 1932.

Glenn as you know your Dad had back trouble to. He knew it would be hard to tell the people, so he first made the chart on oil cloth, but I do not know if anyone has it or kept it. Leroy made the large chart.

Glenn I want to mail this to you, now but I will ask Richard if he has any thing he could send you.
